

TIRRA 2025 Finance report to:
2026 AGM May 16/2026

This year has had significant effort dealing with the commercial side of the bank. We have it functioning reasonably well with a few more details to work out. We still have to be able to send funds directly to CRA with our employer remittances. That uses a different section of the banking system. We are also working on getting availability to the savings account online.

This year we have included the opportunity to donate to the trail fund as part of the membership application form. This has been helpful as it does take meaningful funding to keep the trails in good condition.

We still need to increase our member count which will help us to keep our general fund in reasonable condition. It has been a pleasure to serve the community in this manner this year. Please review the statements provided.

Respectfully submitted,

Ernie Hunter
