

TIRRA 2025 SOLID WASTE report to:
2026 AGM May 16/2026

This has been a good year with Andrea Baker happily carrying on as our solid waste attendant. She is happy to have employment on Thetis as opposed to having to travel off island. This year she has been able to get her husband Mike to build a lovely warm home for her onsite. The majority of the materials were donated by various islanders. Our deepest gratitude to Mike for making this happen. We hope to keep Andrea on as a long term servant. The garbage keeps coming in. Tirra has been collecting garbage for a very long time.

Our thanks to Glen Andison who has been very generous to weed eat and tidy the yard as it needs. Much appreciated Glen.

We have done some bin shuffling and some additions so we can keep the number of hauling trips from increasing. The bag fees are already high and we hope to keep them as low as possible. GFL has been a great hauling company and is easy to deal with and very helpful. There is still a requirement to have the service functioning.

Respectfully submitted,

Ernie Hunter
